SUMMARY

Analyst with 4 years of experience in banking operations at South Indian Bank, transitioning into data analytics. Hands-on experience **handling 30,000+ customer records, 5–20 Cr** in monthly transactions, and 20–50 loan applications per month with full compliance and accuracy. Completed a **PG Certification in Data Analytics with Generative AI from IIT Guwahati**, with working knowledge of **SQL, Python, Power BI, and Advanced Excel**. Strong domain foundation in **BFSI, KYC/AML**, and regulated-data handling, looking to apply analytical and process-optimization skills to data-driven roles.

SKILLS

Data & Analytics: SQL (joins, aggregations, subqueries), Python (Pandas, NumPy, Matplotlib, Seaborn), Exploratory Data Analysis, Data Cleaning, Statistical Analysis

Business Intelligence: Power BI (DAX basics, dashboards), Tableau (basics), Advanced Excel (Pivot Tables, XLOOKUP, Power Query, Conditional Formatting, Charts)

Domain Knowledge: Banking Operations, KYC / AML Compliance, Loan Processing, Account Reconciliation, Regulatory Reporting, MIS Reporting

Tools: MS Office Suite, Jupyter Notebook, Google Sheets

EXPERIENCE

JUNIOR ASSOCIATE — SOUTH INDIAN BANK PVT. LTD, DELHI (Sep 2021 – Aug 2025)

MIS & Reporting: Generated daily, weekly, and monthly MIS reports covering 30,000+ customer accounts using Advanced Excel (**PivotTables, XLOOKUP, Power Query**), enabling branch leader-ship to track operational KPIs and reduce manual report-prep time.

Loan Processing: Reviewed and processed 20–50 loan applications per month end-to-end, including eligibility verification, document scrutiny, and compliance checks, maintaining accuracy and turnaround time within bank SLAs.

Transaction Handling: Executed and reconciled fund transfers (NEFT/RTGS/IMPS) totalling ₹5–20 Crore per month with zero reconciliation discrepancies.

AML & Risk Reporting: Identified and escalated suspicious transactions on a weekly basis to the assurance and compliance team, contributing to the bank's anti-money-laundering surveillance.

Team Mentoring: Trained and onboarded 2–3 new joiners in a team of 5–10, covering MIS reporting workflows, KYC procedures, and compliance protocols. Collaborated with internal departments (credit, operations, compliance) to streamline workflows and improve service delivery for branch customers.

PROJECTS

RETAIL SALES ANALYTICS — PYTHON, SQL, POWER BI

Performed end-to-end exploratory data analysis on retail sales data; cleaned and standardized raw transactional records to ensure data quality. Identified top-performing and underperforming product categories to inform inventory and marketing decisions. Segmented customers based on purchase behavior to support targeted marketing campaigns.

E-COMMERCE SALES & INVENTORY ANALYSIS — PYTHON, EXCEL, POWER BI

Analyzed sales trends across product categories to surface revenue opportunities and seasonal patterns. Built dashboards to monitor stock levels, helping minimize excess inventory and stock-outs. Translated raw transaction data into business-ready insights for marketing and supply-chain teams.

PHONEPE DIGITAL PAYMENTS — PYTHON (PANDAS, MATPLOTLIB), SQL

Cleaned and analyzed PhonePe transaction data across Indian states to identify usage patterns. Highlighted top districts by user base, popular transaction types, and dominant device brands per state. Visualized state-wise and category-wise transaction trends to support data-driven product decisions.

EDUCATION

PG Certification in Data Analytics with GenAI — Indian Institute of Technology Guwahati & Coding Ninjas (2025 – 2026)

Bachelor of Commerce, **Mathematics & Statistics** — National Post Graduate College, Lucknow (2018 – 2021)

CERTIFICATIONS

GenAI Powered Data Analytics Job Simulation- TATA (Forage)

Advanced Excel & Analytics — IIT Guwahati & EICT Academy (Top Performer)

Marketing Analytics — University of Virginia (Coursera)

Introduction to Data Science — Cognitive Class
